

Grow with Google

Google Career Certificates

Flexible, online training designed to provide job ready skills in high-growth fields such as cybersecurity, data analytics, digital marketing & e-commerce, IT support, project management, or user experience (UX) design. No degree or prior experience required.

55%

identify as Asian, Black or Latino¹

These certificates are taught and developed by Google employees with decades of experience in these fields and are hands-on, practical, and rigorous.

75%

report an improvement in their career within 6 months of certificate completion¹

Certificate graduates can earn college credits at participating universities. Google Career Certificates offer a recommendation from ACE[®] of up to 15 college credits.

Google Career Certificates Employer Consortium

Organizations can join our Google Career Certificates Employer Consortium to seamlessly grow their talent pipeline, engage and retain employees and more:

- Talent Acquisition Overview:** Google connects employers to highly skilled and diverse talent coming from the Google Career Certificates program. Employers get priority access to a unique talent pipeline, recruiting tools, staffing support and exclusive events..
- Reskilling & Upskilling Overview:** Organizations can upskill or reskill their workforce with a low cost, high ROI program. Participating employers receive account management support, implementation playbooks, best practices, and insights to drive employee engagement and mobility.

Join the 150+ companies leveraging the Google Career Certificates for their talent needs:
